

SHIPHERO

EXTENDED PROFILE

OVERVIEW

ShipHero is a Warehouse Management Software that allows for 3PLs to accurately track and manage inventory, shipping, fulfillment, and more.

WHAT IS SHIPHERO?

ShipHero is a Warehouse Management Software that allows for 3PLs to accurately track and manage inventory, shipping, fulfillment, and more.

ShipHero offers pricing plans for different business models and sizes, making them a good choice for any enterprise. Their ShipHero Mobile app is designed for speed and simplicity, making it possible to manage inventory and ship orders from anywhere.

KEY FEATURES OF SHIPHERO WMS

- **Inventory management:** Real-time tracking, kitting, product rotation, and wireless warehouse capabilities, ensuring optimal inventory control.
- **Order & shipping management:** Includes features like barcoding, picking & packing, returns, and seamless shipping integrations with major carriers, enabling businesses to automate and streamline their shipping processes, reducing errors and improving delivery times.
- **Analytics & reporting:** Offers robust analytics and customizable reporting tools, empowering businesses to make data-driven decisions and optimize warehouse performance.
- **3PL support:** ShipHero is built to support 3PL businesses with tools for billing, client management, and automated order routing, helping third-party logistics providers scale effectively.
- **Automation:** ShipHero allows businesses to automate many of the aforementioned workflows, including order routing, inventory updates, and shipping label generation, significantly reducing

manual work and errors.

DOES SHIPHERO WORK WITH SHOPIFY?

ShipHero is fully integrated with Shopify, allowing for a seamless customer experience. Once an item has been purchased on Shopify, ShipHero handles the shipping and inventory management.

Other ShipHero integrations include marketplaces such as Amazon, eBay, and Walmart, and carriers such as FedEx, UPS, and USPS.

DOES SHIPHERO SUPPORT MULTIPLE WAREHOUSES?

Yes, ShipHero allows businesses to manage multiple warehouses from a single platform, providing centralized control and visibility.
