# EXTENDED PROFILE

## OVERVIEW

If you're looking for a cloud-based WMS that delivers accuracy, reliability, transparency, and radical efficiency in the warehouse, ShipStream is for you.

Designed to scale and adapt to the needs of both large and small clients in multiple industries, ShipStream's features provide extensive data visibility for your inventory, suppliers, merchants, and staff. Understanding your operations is as important as the operations themselves.

Features include an interactive, barcode-driven mobile web application with Android and iOS compatibility, intelligently optimized workflows, workforce time management, and robust integrations with multiple e-commerce platforms and couriers.

Automated intelligent batching, instant customization through scripting, and hyper-accurate rate shopping are just some of the features ShipStream includes to save you money and make your life easier.

ShipStream offers two different billing plans for merchants and 3PLs, the pricing scales to your needs, and you won't be billed for users that are inactive for the billing cycle.
