

WMS RF STANDARD

EXTENDED PROFILE

OVERVIEW

IntelliTrack RF Standard provides small to mid-sized warehouse operations with a WMS solution for the manufacturing, distribution, government, retail and healthcare sectors.

Core features of the web-based warehouse software can be accessed from a single dashboard which includes cycle counts, picking and shipping orders, data queries, reports and alerts.

Database customization is available with custom units of input and queries on lot, expiration date, item and category can easily be performed.

System access is available on handheld computers with barcode or RFID scanners. Integration with QuickBooks, Sage, SAP, Workday, Magento and Microsoft Dynamics are also supported.
