

PROTEUS WAREHOUSE MANAGEMENT EXTENDED PROFILE

OVERVIEW

Proteus is a warehouse management system that has been designed to accommodate distributors, wholesale suppliers, logistics, and warehousing organizations.

The Proteus WMS is an integrated software suite that offers a range of modules including warehouse mapping, goods receiving, manual and voice-directed warehouse picking, and load planning.

As well as the warehouse management system, Proteus has a range of further enterprise platforms which can integrate with the system, including ERP, transport, and logistics, plus vehicle routing and scheduling.

As a cloud-based service, the software is delivered directly to the user via a virtual server, meaning access is available via any device with an internet connection.
