

HIGHJUMP WMS

EXTENDED PROFILE

OVERVIEW

HighJump WMS is capable of handling both perishable and nonperishable products in a range of sectors, including 3PL, e-commerce and manufacturing. The WMS is designed to optimize a warehouse from a role-based level, with the goal of better operational efficiency and completion of orders on time.

The system can be integrated with a range of major ERP and ecommerce systems, HighJump also offer a range of solutions designed to handle the entire supply chain process both inside and outside of the warehouse. Such modules include labor management, yard management and transportation operations.
