

# HIGHJUMP WMS

# EXTENDED PROFILE

## OVERVIEW

HighJump WMS is capable of handling both perishable and nonperishable products in a range of sectors, including 3PL, e-commerce, and manufacturing. The WMS is designed to optimize a warehouse from a role-based level, with the goal of better operational efficiency and completion of orders on time.

The system can be integrated with a range of major ERP and e-commerce systems, HighJump also offers a range of solutions designed to handle the entire supply chain process both inside and outside of the warehouse. Such modules include labor management, yard management, and transportation operations.
