

NETSUITE WMS

EXTENDED PROFILE

ORACLE NETSUITE

OVERVIEW

NetSuite warehouse and fulfillment software forms part of the company's larger cloud ERP suite of applications. The warehouse management component of this suite offers core functionality including inventory, receiving and putaway, order fulfillment and cycle counts.

NetSuite WMS functions are supported by real-time data visibility which can be monitored through user dashboards. Through dashboards and real-time visibility, NetSuite users can access inbound and outbound KPIs and monitor labor productivity.

Netsuite WMS can be used with wireless RF/mobile handsets and also offers bar code scanning capabilities.

Netsuite WMS can be used as a further solution alongside the Netsuite platform, or installed as its own system using Netsuite WMS Lite.
