

3PL WAREHOUSE MANAGER

EXTENDED PROFILE

OVERVIEW

3PL Central is a leading warehouse management system (WMS) built by 3PLs for 3PLs, partnering with our customers to quickly transform paper-based, error-prone businesses into service leaders who can focus on customer satisfaction, operate more efficiently, and grow faster.

3PL Warehouse Manager is a comprehensive warehouse management platform that makes it easy to manage inventory, automate routine tasks, and deliver complete visibility to 3PLs and their customers. Aimed at helping third-party logistics (3PL) companies manage their business, 3PL Warehouse Manager is a cloud-based warehouse management system that integrates seamlessly with online shopping carts, marketplaces, shipping carriers, accounting software, and other technology through API or EDI.

3PL Warehouse Manager is the proven backbone of 3PLs looking to do ecommerce, omnichannel, B2B, retail, or direct to consumer fulfillment. . Features include real-time inventory visibility, customer specific costings, customized user access security levels, bespoke packing slips, order allocation, FedEx and UPS integration and mobile barcode scanning. The WMS can integrate with shipping providers and e-commerce platforms, enabling users to communicate with their network via the cloud.

3PL Warehouse Manager features mobile barcode scanning through the SmartScan feature, enabling 3PLs to improve accuracy and productivity during the receipt, pick, pack, and ship process. SmartScan eliminates employee guesswork with onscreen picking instructions directly on your mobile scanning device.

3PL Warehouse Manager also offers a Small Parcel Suite to ensure warehouses can keep up with high order volumes while maintaining peak performance.

Prices are calculated according to individual company requirements. Training, support, and customer

success resources are provided for all packages and engagements.
