

# VIN ERETAIL WMS

# EXTENDED PROFILE

## OVERVIEW

Vin eRetail WMS is a cloud-based system for companies supplying businesses and selling directly to customers.

Vin eRetail integrates with many of the leading eCommerce sites such as Amazon, eBay, Lazada, Flipkart and Snapdeal and then with the third-party logistics and last-mile fulfillment companies. Vin eRetail WMS is a multi-channel retailing solution aimed at moving beyond just eCommerce and including integration with other retail and manufacturing ERPs.

Vin eRetail WMS also allows for the segregation of your inventory based on clients. This allows managers to be more efficient and accurate in the control of inventory. Vin eRetail also allows for a single client to be managed through one screen, which can avoid potential errors in the system. If the order is going directly to the consumer then this WMS allows for unique small orders to be selected whilst maximizing pick quantities and reducing travel time.

The Vin eRetail billing system allows for fixed billing periodically and for miscellaneous charges to be billed when and if they are needed. This is all managed in a timely manner through the 3PL billing system.

Vinculum Group offers implementation support with specialist integration services during installation.

## SOFTWARE SCREENSHOTS

The screenshot displays the 'Bulk Order Allocation' page within the eRETAIL WMS application. The interface includes a top navigation bar with menu items: Master, Procurement, Sales, WMS, Returns, Transfer, Admin, Reports, and POS. A breadcrumb trail shows 'WMS > Order Processing > Bulk Order Allocation'. The main form area contains several input fields and options:

- Order Type:** A dropdown menu currently set to '--- Select ---'.
- Order Status:** A dropdown menu currently set to 'Confirmed'.
- From Order Date:** An empty text input field.
- To Order Date:** An empty text input field.
- Run Options:** Two radio button options: 'Run All Orders For' (selected) and 'Run For All Zones'.
- Buttons:** 'Execute' and 'Reset' buttons are located at the bottom right of the form.

The footer of the page indicates the version 'eRetail v2.7.6.6 - Rainbow Roses' and is powered by 'Vinculum'.
