EXPLOREWMS

LISA DISTRIBUTION WMS

EXTENDED PROFILE

LISA WMS

OVERVIEW

LISA WMS is an end-to-end warehouse management add-on that is seamlessly integrated with SAP Business One (SAP-Certified) and SAP Business ByDesign. LISA provides the tools required to optimize warehouse operations and increase visibility, accuracy, and overall efficiency across the inbound and outbound supply chain.

Available in three different packages (Starter Pack, Express & Distribution), LISA WMS is a scalable system designed to meet the requirements of small and medium businesses as well as subsidiaries of larger organizations.

LISA WMS provides the features and functions to extend SAP’s power into warehouse operations for wholesale distributors, manufacturers, and retailers. LISA helps companies to be more agile and responsive while enabling them to achieve higher service levels and customer satisfaction.

Key features include cross-docking, directed picking and put-away, container management, shipping, EDI, RMA management, and much more. Additionally, LISA can support production activities (pick, pack, transfer, issue) for manufacturers.
